## To our dear Friends

Re: Experiential Training and Action Planning  
APRIL 20-23, SEA CAMP

*“From the ruins of Yolanda, we will rise ...  
stronger and better than ever.”*

Dear Friends:

After we were erased by Yolanda in  
November 2013, this promise was made.

The School of the SEA is now renamed the  
SEA CAMP – Sea and Earth Advocates of  
Culture, Arts, and Music for the Planet (SEA  
CAMP).

On April 22, we will celebrate Filipino  
resilience and relaunch the experiential learning center for sustainable living. We will  
have fun and meaningful activities. (Draft program attached).

We kindly invite you to join us on this day when we will:

1. File a petition to share the roads of the town of Sta. Fe in Bantayan Island.  
This movement of the young creatively uses people power and legal firepower to propose a local law, pursuant to the little-known law on People’s Initiative. The proposed local ordinance divides all the roads if the town by half: Half for motor vehicles, and the other half for safe and convenient walkways and bike-lanes.
2. Permanently close off a patch of freshwater wetland to become a bird sanctuary and wetland wilderness.

3. Open the Art Center for the Earth.
4. Culmination of the experiential training of the National Environmental Action Team (NEAT).

Logistics will be in the spirit of *Bayanihan*, i.e., to each his/her own travel and accommodation arrangements. Meals will be potluck.

For further details, you may contact our partner DENR Region 7 through Ms. Cindy Pepito @ numbers 0917.679.3957 or 0933.650.8579, [cindlynpepito@yahoo.com](mailto:cindlynpepito@yahoo.com). We will appreciate your kind confirmation by April 9, 2016

We trust that this letter finds you in good health and spirits, and hope you can join us.

Sincerely yours,

Tony Oposa
