

AFTERWORD

ART CENTER FOR THE EARTH

The Climate Change House will become the Art Center. On the ground floor will be a mini –hall for performing arts. The first floor will be an exhibit hall for local artists and for the natural history of the Visayan Sea. The roof-deck will feature an area for painting, music composition, and an edible garden and a private coffee shop.

The Art Center will also have a room for an artist-in-residence program.

1. Wetland Wilderness

A large portion of the property will be closed off to any form of human intrusion and will be set aside as a pure wilderness reserve.

2. Eco-Meeting Hall

Part of the white house, since rebuilt from Haiyan, will be opened as an Eco-Meeting Hall. This area has a spectacular view of the beach and of the marine sanctuary and will inspire people to take action!

ROAD SHARING
